Email

Street Address

City

Province

Postal Code

Organization Information (if applicable)

- Applicant type
- registered charity
 - incorporated non-profit
 - club, community group, etc.

CRA registration number (if applicable)

Website

Social media

Project Information

Site location (address or GPS coordinates)

Property type/ownership

- public

private

If private,

Name of Property Owner

Please describe below how the site be primarily used, and whether there will be opportunities for public access (note this is not a requirement)

Please indicate which best describes the nature of your project:

- creation of new habitat
- restoration of existing degraded habitat

If you know which pollinator species are currently present, please list below.

If you hope to attract additional species that are not currently present, please list below.

Will, or might, managed honeybee colonies have access to the site? If so, please explain.

If the site is publicly accessible or visible (eg. adjacent to a public trail or road), please describe any opportunities for informational signage

Area to be seeded (in hectares)

Please list the species of plants desired, indicating which are absolutely required for your habitat plan, and which you believe are optional (in order of preference). Or, if you already have a detailed seed mix plan indicating quantity or ratio by species, please provide.

If you already have a preferred seed supplier, please provide name and contact information

Describe your workplan, including how and when the seeds will be planted. If planting is required over multiple years, please explain.

Please provide any additional description of your project, explaining why it is important and how it will benefit the larger ecosystem in your area (max 1000 words)

Stewardship Plan

Describe your site stewardship plan for the next 3 years, especially with respect to the care and nurturing of the seeded wildflowers.

Please describe any plans to monitor or survey the site for pollinator occurrence.

Submit completed application by **June 21, 2019** to seeds@wildlifepreservation.ca

Please feel free to attach/include (preferably in jpg or pdf format):

- recent photo(s) showing current site condition
- any maps/drawings, etc. which will help explain the project
- any other information which you feel is relevant
